

WORLD OF TRAMPOLINES

AKROBAT

With over sixteen years of experience in trampoline manufacturing we pride ourselves today as one of the top European suppliers of trampolines, focused on qualities that bring real value to our customers.

WE KEEP KIDS HEALTHY AND SAFE

We believe active play enriches children's lives and allows them to build a healthy body that will contribute to their overall development and help them achieve their full potential in adult life.

WIDE RANGE OF TRAMPOLINES

We worship diversity, that's why our complete range of trampolines comes in all shapes and sizes and covers a wide spectrum of needs for different customer profiles.

CERTIFIED PRODUCTS

All our products are made in accordance to highest EU standards.

100% MADE IN EUROPE

We like to keep the trampoline production close to home, to guarantee consistent quality of our products and to offer you unsurpassed customer service.

62.7 % SOFTER BOUNCE ABSORPTION

Akrobat trampolines have been laboratory tested for their ability to absorb jumps and the intensity of the G-force they subject the body to. Results demonstrated a more even deceleration of the jump, slowly bringing the body to a halt and softly absorbing the landing, compared to mainstream competitor products. This guarantees Akrobat trampolines are a better choice when it comes to children's joints and spine.

EXPERT ENGINEERING AND CRAFTSMANSHIP

All Akrobat trampolines are designed to exceed customer's expectations. They are safer to use, endure extremely heavy loads, resist changing weather conditions and provide superior bounce performance.

PUBLIC USE TRAMPOLINES

A trampoline can be a great attraction for a public area too! From regenerating a disused courts or parks to installing a multi-field toddler trampoline in a shopping centre, a trampoline can make a happier environment for kids and parents alike!

Our portfolio offers an extensive range of commercial grade trampolines designed for a whole host of environments; indoors, outdoors, schools, kindergartens, hotels, camping sites, city centers, sport parks, fitness facilities, gyms and rehabilitation centers.

PRIMUS PREMIUM

KINDERGARTEN & SCHOOLS

MEDICAL & SPECIAL NEEDS

PLAYGROUNDS

CAMPING

HOTELS & RESORTS
